McCracken Family Update--March 2010--part 5...and HAPPY EASTER!

5. Greece in the international news...

Pray for the Greek people as the economy has affected almost every family. Unemployment is over 10% and as austerity measures take effect, estimates are that unemployment will increase to as high as 20%. Tax hikes are also hurting the average citizen (and ex-pats like us). For example, gasoline jumped from \$5.20/gallon to \$7.20/gallon in one day. Utilities immediately went up as well.

If you made it this far in our 5-part update, THANKS FOR CARING! If you pray for us, THANKS FOR PRAYING! If you ever make a financial investment in our life/ministry, THANKS FOR INVESTING.

Due to economic hardships in the U.S., we have recently received notification from individuals and churches that they will either need to discontinue their support or they may need to soon. We are feeling the economic hardship from both the U.S. and from the Greece side. HOWEVER, GOD IS OUR SOURCE and we continue to trust that WHERE GOD GUIDES, GOD PROVIDES. If you have allowed Him to use you in helping to provide for us, THANK YOU! WE ARE TRULY GRATEFUL!

Thanking God for you,

Scott and Vicki

WE WISH YOU A BLESSED AND HAPPY EASTER WHERE EVER YOU ARE IN THE WORLD!
